2010 DATA CHANGES ALERT

Collaborative Stage version 02.03 Release Announcement Clarification

Although the schemas for CS version 02.03 were announced and have been posted on the Collaborative Stage website, **please continue to use CS version 02.02 schema codes, until your database is converted to the CS version 02.03.**

As per the CS coding instructions:

CS version 02.03 is effective for all reportable cases diagnosed 1/1/2011 and forward. Therefore, CS version 02.03 will have to be implemented before the processing of any 2011+ cases. After CS version 02.03 has been implemented, all cases need to be processed under CS version 02.03 regardless of diagnosis year.
